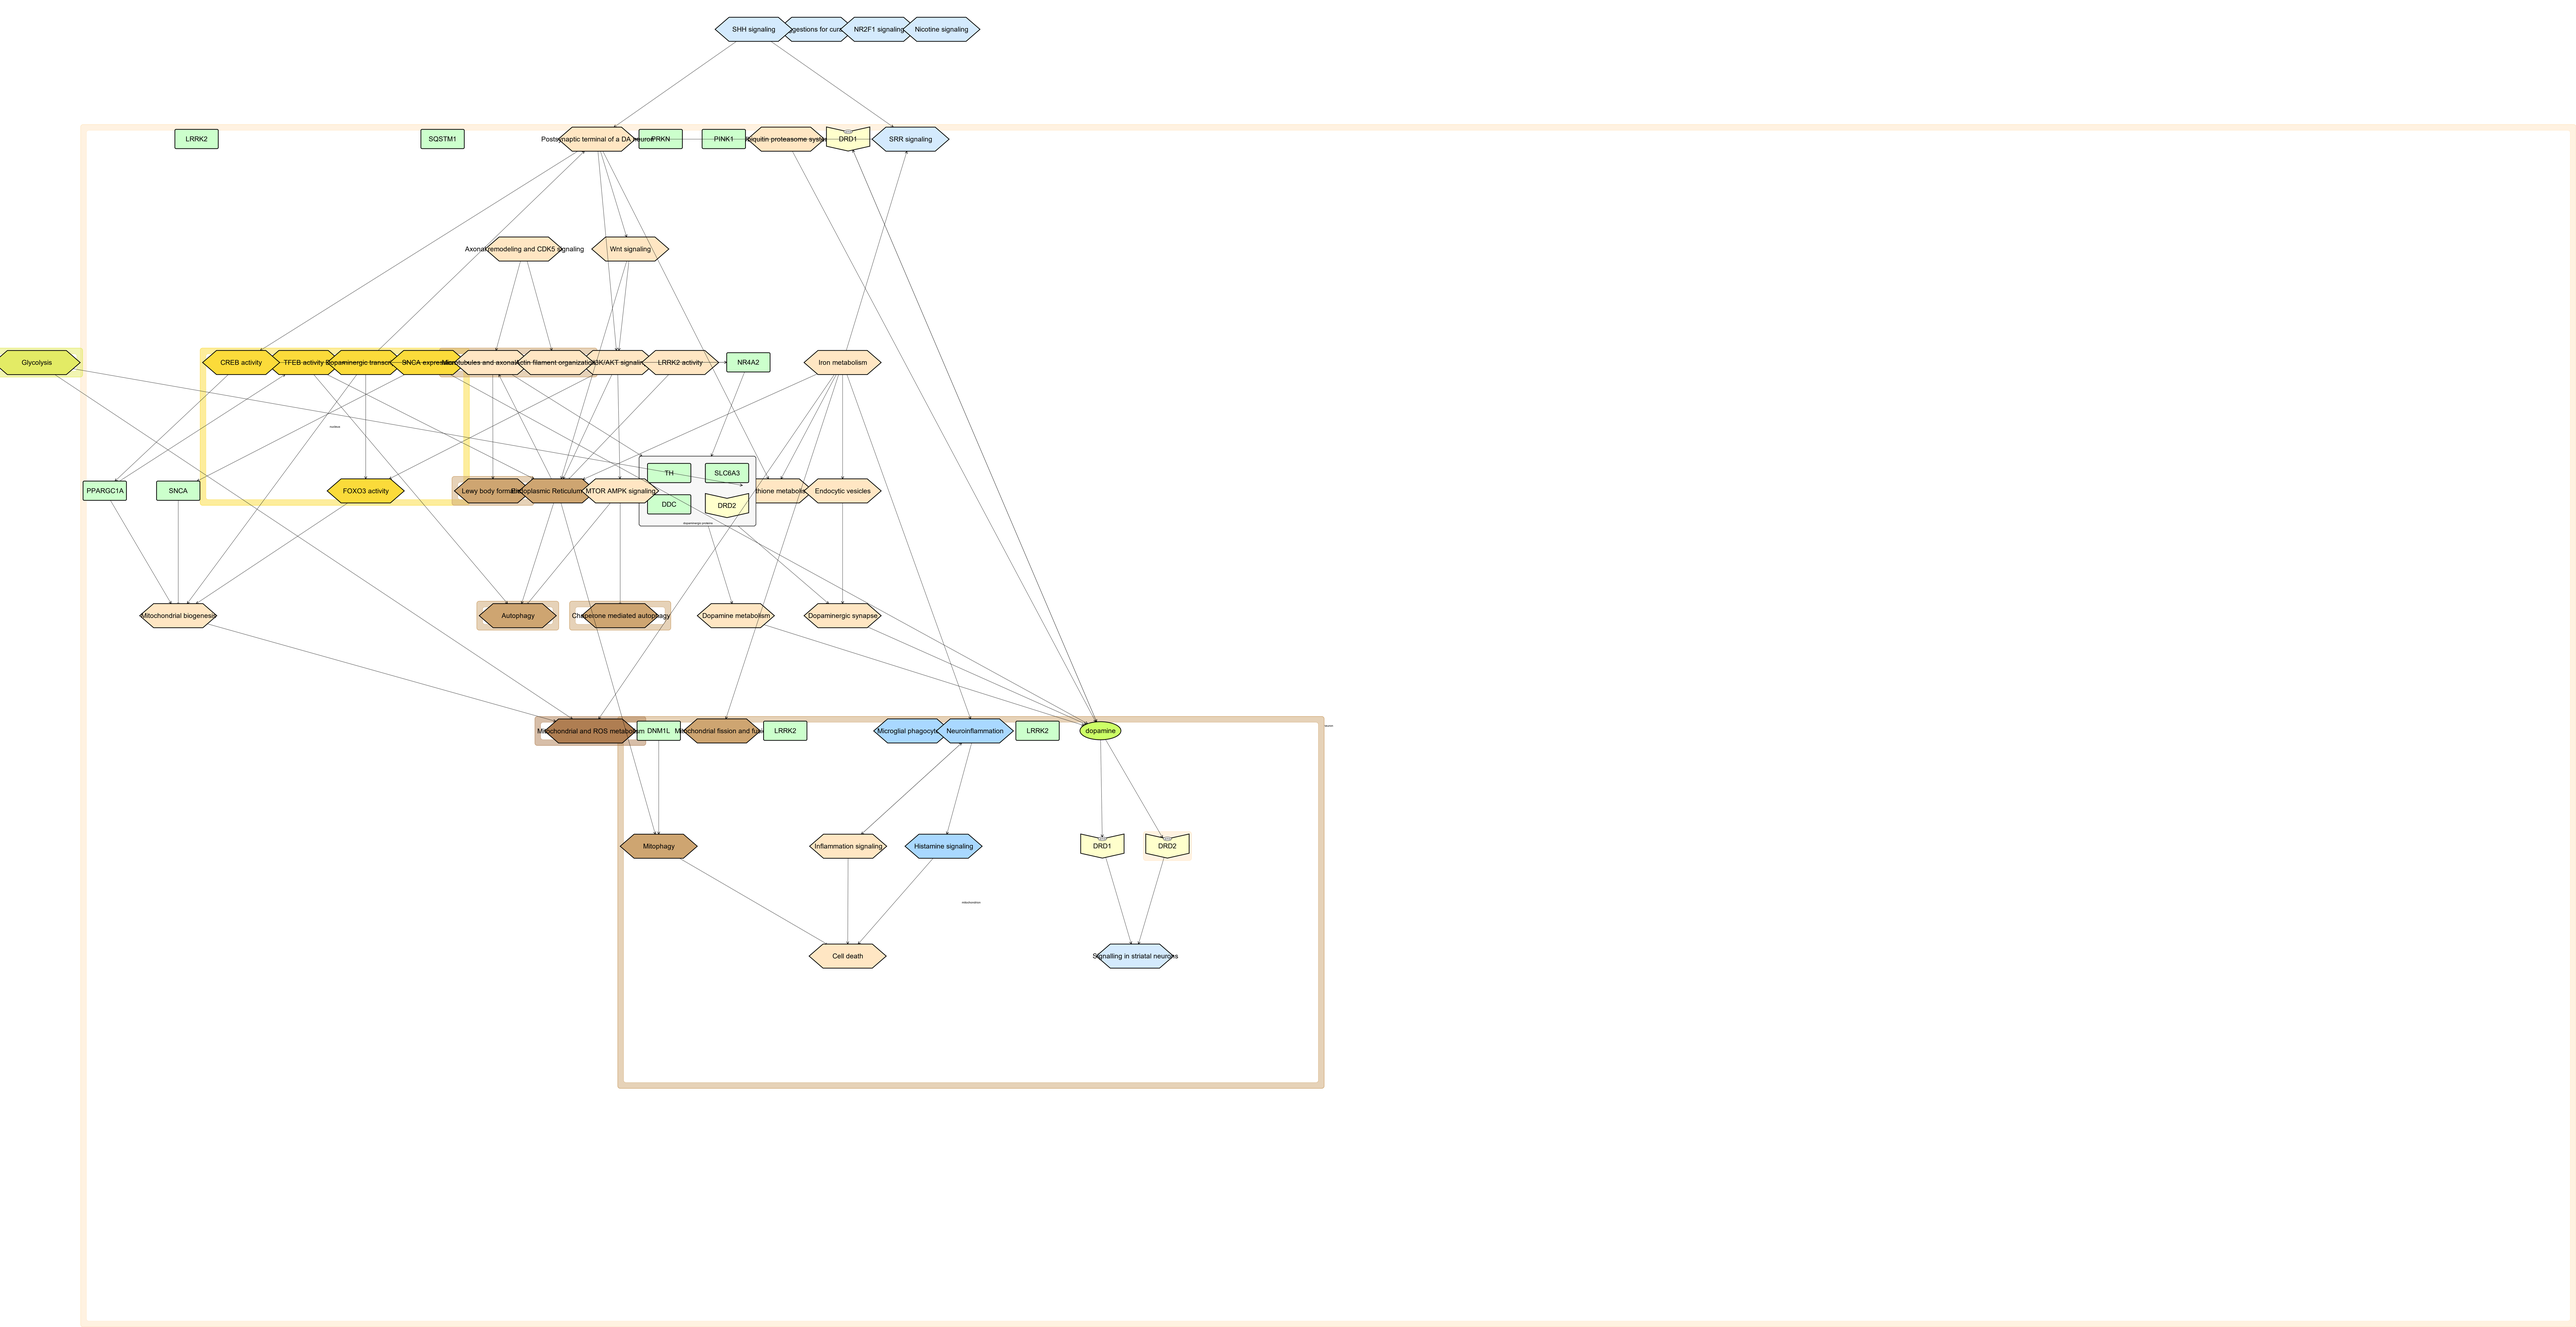
Suggestions for curation
SHH signaling
SRR signaling
Wnt signaling
Axonal remodeling and CDK5 signaling
Postsynaptic terminal of a DA neuron
PI3K/AKT signaling
Iron metabolism
LRRK2 activity
CREB activity
Noradrenergic transmission
FOXO3 activity
SNCA expression
TFEB activity
Endolysosomal/Autophagy activity
Actin filament organization
Microtubules and axonal transport
PPARGC1A
NR4A2
SNCA
Glycolysis
Glutathione metabolism
Mitochondrial biogenesis
TH
SLC6A3
DDC
DRD2
Dopamine metabolism
DRD1
PINK1
PRKN
Dopamine
Dopaminergic synapse
LRRK2
Mitochondrial and ROS damage
Mitochondrial fission and mitophagy
Mitophagy
DNM1L
Iron metabolism
PI3K/AKT signaling
Endocytic vesicles
Autophagy
MTOR AMPK signaling
Chaperone-mediated autophagy
SNCA
Lewy body formation
SQSTM1
Ubiquitin proteasome system
Signaling in striatal neurons
DRD1
DRD2
MAPT signaling
Nicotine signaling
Inflammation signaling
Cell death
LRRK2
Neuroinflammation
Histamine signaling
SHH signaling
LRRK2
Microglial phagocytosis



SHH signaling
gestions for cura
NR2F1 signaling
Nicotine signaling
LRRK2
SQSTM1
Postsynaptic terminal of a DA neuron
PRKN
PINK1
Ubiquitin proteasome system
DRD1
SRR signaling
Axonal remodeling and CDK5 signaling
Wnt signaling
Glycolysis
CREB activity
TFEB activity
Dopaminergic transm
SNCA expression
Microtubules and axonal
Actin filament organization
PI3K/AKT signaling
LRRK2 activity
NR4A2
Iron metabolism
nucleus
PPARGC1A
SNCA
FOXO3 activity
Lewy body formation
Endoplasmic Reticulum
MTOR AMPK signaling
